

Dear FCC members,I'm unpleasantly surprised by the fact that you are rying to limit the services of the ever-improving XM radio.The Instant Traffic & Weather Channels on XM are fabulous.I always tune to the Instant Traffic and Weather channel for DC when I drive because it gives me the most accurate and up-to-date information.Please,do not let the NAB fool you thus making you limit the vast listener's choice on teh marvelous XM radio.The NAB should only learn from XM and not try to stifle them.
